New York and New York papers are authorized to receive advertisements and Subscriptions for this paper

S. N. Sloan, Agent, Kennedy's Building, Court-st., Bangor.

The Law Regulating Newspapers and Periodicals

Subscribers who give express notice to discontinue are holden to pay for the time they may be found to be receiving the paper, or may continue to receive it, if they neglect or refuse to take their papers from the office to which they are directed. They are holden responsible till they have settled their bills, and ordered their papers discontinued.

If subscribers remove their papers without giving notice to the publisher, and the publisher has reason to suppose they intend to defraud the proprietors of their papers, they are responsible in law for the price of the papers.

The courts have decided that a refusal to take newspapers or periodicals from the Post Office, whether they are taken from the office or not, is prima facie evidence of fraud.

The law requires all arrearages to be paid when a subscriber orders his paper to be discontinued, at his option, from the Post Office, with which he is a subscriber, and the payment of all arrearages is optional with the publisher, and the payment of all arrearages is prima facie evidence of fraud.

The law requires all newspapers or periodicals remaining in the post office, after the time subscribed for has expired, to be taken by the person to whom they are directed, and the publisher is responsible till they are ordered from the office, and all expenses are paid.

The law requires the publisher to send his paper to the residence of the party subscribing, unless notice is sent of a different place to which it is to be sent.

AGENTS

Gardner Brewer, 5 State street, Boston, is a duly authorized agent for the Whig and Courier, and all persons in Boston and vicinity can leave their advertisements and Subscriptions with him at the office of the paper.

The high reputation it has established in the last two years, and the fact that it is fast supersiding all other worm remedies, is the best test of its great merit.

It affords Relief in twenty-four hours, and an Entire Cure is Warranted when taken according to directions, which accompany each bottle.

This Syrup is also a most valuable family cathartic, to be always used when physic is required, especially for children. It corrects the secretions, gives tone to the stomach and bowels, assisting nature in her efforts to restore health. It is purely of Vegetable Extracts, and therefore safe and reliable.

WARREN'S

COUGH BALSAM

Has been found, by experience, to be the Best Remedy for the various Diseases of the Lungs and Throat, such as

Diphtheria,

Asthma, Bronchitis, Consumption, Croup, Influenza, Pursing, Pneumonia or Inflammation of the Lungs, and Whooping Cough.

IN these Complaints this Medicine had NO SUPERIOR, and while thus offending it is perfectly SAFE to administer to persons of all ages.

At all times of the year this Balsam is found useful, especially in the Autumn, Winter and Spring, and many Colds and Coughs, which, if neglected, might prove fatal, may be CURED that once by a few doses of this invaluable remedy.

This Cough Balsam possesses the two-fold advantage of being at once unusually palatable and tender on a preventive of all the diseases of the Throat, Lungs and Bronchia.

In DIPHTHERIA this Balsam has proved itself unsuspectedly successful. When given at the first onset of the Pestilence, it checks it at once, and in many cases, is believed by those who have used it, to have saved their lives.

In ASTHMA, however violent and distressing, this Balsam gives prompt relief.

In BRONCHITIS and PNEUMONIA it relieves the irritation, loosens the Cough, and promotes a copious expectoration.

In HOOPING COUGH it moderates the paroxysms, prevents the disease from becoming so severe and dangerous form, and shortens it course.

Every family should keep it in the house, and thus avoid the dangerous delay occasioned by sending at for the medicine when needed for immediate use.

The best recommendation for a good medicine is found in its fruits. I tile following certificate, from one who has used it, does not give you confidence to try one bottle for yourself, and you will be convinced.

It will cost you but twenty five cents, and may save you as many collars in time and comfort in its.

Letter from Col. Roberts.

Many a soldier in my command, as well as officer, has experienced the benefit and effects of the same. IN consequence of the scarcity of Paper Stock it is feared that two-thirds of the Paper Mills in the country will have to close up, for the want of the raw material. Do you want your Newspapers delivered every morning and evening of a color nearly equal to white paper? If not, then collect up your COTTON RAGS, and Bones, and Newspapers, and send them to the

Union Crockery Store,

where you will receive GOOD PRICES for them, in CASH or WARE, as you please.

For a long time past the Conductors have suffered from the want of good White Paper, on which to print their journals, many of which for months past have been printed on paper of the dingiest hue. It is to be hoped that the cast off of our presses in the North will not meet with such an fate hereafter. There rags, be rags enough in the country to supply each manufacturer, and they can be procured if those interested in the purchase of them exercise a little more than the usual energy and activity in discovering their whereabouts.

American & Foreign Patents

R. H. EDDY

SOLICITOR OF PATENTS,

Late Agent of the U. S. Patent Office, Washington, (under the act of 1836.)

76 State Street, opposite King Street, BOSTON.

AFTER an experience of upwards of twenty years, continues to secure Patents in the United States, also, in Great Britain, France and other foreign countries. Caveats, Specifications, Models, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. References made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. On notes of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentable utility of inventions not surpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is more successful at the Patent Office than the subscriber, and as success is the best proof of ability and skill, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse." CHARLES MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

"Mr R. H Eddy has made for me THIRTEEN application, on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." TOM PAINE.

During eight months, the subscriber, in course of his large practice, made on twice rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents. R. H. EDDY

Tried and True Standard Remedy

For Coughs, Colds, Consumption, and all Pulmonary Complaints, use the

Vegetable Pulmonary Balsam,

which has maintained its high reputation for nearly twenty years, and is recommended by many of the most eminent private and professional gentlemen in the country, among whom are Rev. Joseph Leigh, Philadelphia, Rev. Dr. Lyman Beecher, New York, the late Prof. Leonard Woods, Andover Theological Seminary; S. P. Thompson, formerly Secretary of State, Vt., Drs. Merrill, Berry, Abell, Parker, Berry, and many others, by the Press, and by the largest and oldest dealers in drugs and medicines in the United States and Canada.

OPINIONS OF THE TRADE.—"We know of no medicine which has deservedly sustained so high a reputation for so long a term of years, or which more rarely disappoints the reasonable expectations of those who use it."

[Signed by many of the oldest and most respectable druggists in the United States.]

Extracts from Letters received from Physicians.

"I with confidence recommend it as superior to any other preparation for the above complaints."—"It has a superiority over every kind of medicine used, and has been used for long complaint with wonderful success."—"I am satisfied it is a valuable medicine."—"It is safe, convenient, and very efficacious indeed."—"To my knowledge, it has never disappointed the reasonable expectations of those who have used it."—"I confidently recommend its use to all complaints of the chest as equal, if not superior, to any other preparation within my knowledge."—"Of all the proprietary remedies used for coughs, I am satisfied yours is the best, and hope it will be better known and more generally used."—"I have prescribed your balsam, and regard it as the most valuable and effective remedy within my knowledge."

Extract of a letter just received from a gentleman ordering some of the Balsam.

"Markesan, Green Lake Co., Wisconsin, Dec. 12, 1862. Messrs Reed, Cutler & Co.—Gentlemen: For nine (nearly) years I have used your Vegetable Pulmonary Balsam in my family, but more so to clear it for myself. When I first used it, I was given up by physicians as a hopeless case of Consumption. I took about half a bottle. I have always kept it since, and consider it for the lungs, the best medicine I ever used. I have recommended it in several cases, and in every case it has proved beneficial—in one case my wife's, after the doctors had pronounced her incurable."

Respectfully yours, H. H. ROBINSON.

Price—Small size, 50 cents; large, $1. Be careful to inquire for the Balsam, which is prepared only by REED, CUTLER & CO., Boston, and sold by dealers generally. 1 eow 31—3m dawdw

NORTHERN DEMOCRATIC AID TO THE REBELS. After quoting from the recent address of Mr. Yancey to the Alabama Legislature, the Providence Journals speaks of the various ways in which some of the Northern democrats are rendering to Yancey and his friends the very aid they desire. By malignant partisan assaults on the administration; by representing the continuance of the war as useless; by articles that constantly capitulate on disasters, taxation and sufferings, by the dissemination—with a unified exaggerations—of all the unfavorable news, by giving the darkest colouring and most discouraging interpretation to every event and every rumor, by all the means that unscrupulous ingenuity can devise to dishearten the people, they do all in their power to weaken and distract us, and to help the rebels. Swallowing all the insults that these Southern leaders heap upon them, namely bearing the cuffs and kicks which their old allies give them, they still consent to do the work which the rebels desire to have done, and some of them cringe so fawningly as to ask the traitors to come back upon almost any terms they may name.

But they are so anxious to creep under the clothes with their old political bed-fellows, and to share with them again the loaves and fishes, that there is no humiliation too abject for them. We see some of the New York leaders amuse themselves with the idea of a convention, which is to arrange matters by some other mode than fighting. Hear the plain talk of the Richmond Examiner on the subject. These are the words it used the 23 inst—

The people of the North who wish to see the end of these hostilities and troubles, must, first of all, agree to a recognition of the confederate government. Without that, the war may go on forever. Even an armistice supposes such a recognition. Northern speculation upon a general convention of the States is, therefore, mere moonshine, so long as the South remains unconquered. If the armies of the United States were to succeed in driving the persons composing the confederate government entirely beyond their territory, and destroy all hope in the people of the restoration of the confederate authority, a general convent on of the two nations, without regard to the constituted authorities of either, free to form any new relations which they thd'r fir, might then become a matter for consideration with the individual inhabitants of the land.

It is affirmed a New York that agents sent by Democrats in that city to confer with rebels upon some terms of conciliation, compromise and reunion, received very plain statements from their "wayward brethren," that they wanted nothing to do with northern democrats, that they would not even talk of any settlement except on the condition of the recognition of the independence of the South. Whether the reports of the rebuff of the New York negotiators are true or not, there can be no doubt that the Richmond Examiner tells the truth when it says that northern speculation on a convention is mere moonshine, so long as the South remains unconquered. Yet it is to men cherishing the purpose of the Examiner that these northern semi-secessionists are supplicatly offering terms and petitions. It is in the interest of such men and of the Southern cause that, they are unceasingly laboring. It is astonishing that the southerners, who have any spirit, despise these tools, that they have so long used? Is it not astonishing that any Northern men can be found so devoid of high patriotism, of a clear perception of facts, of decent self respect, as to be playing into the hands of the rebels, who do not conceal their contempt for them?

A PROPER PROJECT. It is stated that a committee of democrats to be composed of John Van Buren, Ben Wood, James Brooks, Vallandigham and Sunset Cox, are about to address a severe note to General W. S. Rosecrans, asking him what he means by his singular proceedings in Tennessee. Their feelings have been much hurt by his rough and ruffianly mode of handling their friends Bragg, Johnson, Hardee, Rains, etc., and they demand an explanation.

DISMISSAL OF THE FRENCH CONSUL AT NEW ORLEANS. The Washington Republican of the 7th says that Count Mejan, who was accused by General Butler of having acted as a banker to Jeff. Davis, in keeping the money which went to pay for clothing for the Confederate army, and which money was paid over to rebe contractors, after the investigation by Hon. Reverdy Johnson, has been dismissed from his post as Consul at New Orleans, and M. Fauconnet has been recognized by our Government. This was done by M. Mercier, the French Minister, after an examination of Mejan's acts, without any other action on the part of our Government than the mere presentation of the case. This not only reflects great credit upon the French Minister, but will probably open the eyes of Louis Napoleon to the fact that General Butler was not so much to blame in his dealing with his consul at New Orleans.

☞ Rev. J. B. Davis has entablished a suit against the Boston & Maine Railroad Company for injuries alleged to have been sustained in being forcibly ejected from a car in Dover, because of his refusal to pay a extra ticket in exchange for a cloak. A New Hampshire jury gave the Rhodes a verdict for $700, thus deciding that a man is not obliged to give up his ticket to the conductor, unless passing the last station to the one at which he is to stop.

☞ The President has countermanded the order of General Stuart respecting the slaves, to save the Washington republicans.

ARTIFICIAL "SIAMESE TWINS."—A curious experiment was lately made at Strasburg in effect the union of two animals, so that they might, to a certain degree, have a life in common—producing artificially what nature produced spontaneously in the Siamese Twins. Two white rats, of the albino species, were selected for the experiment. An incision was made in the right side of the joint, and in the left of the other, exposing the skin and the cellular tissue under it. The surfaces of the two wounds were kept closely together by sutures and bandages till the sixth day, when union by the first intention was found to have taken place. They then walked side by side, being united by a double band. An attempt to poison both by the mouth of one, did not succeed; but an injection thrown into the jugular vein of one was found to have entered the superficial femoral veins of the other, showing plainly that an intimate vascular union had already taken place between them.

Supreme Judicial Court—January Term.

KENT J., PRESIDING.

Tuesday, January 3d.

The new docket was called, and the Court adjourned to Tuesday, February 3d, at which time judgments for the term will probably be entered up.

The following actions were disposed of—

Elmira L. Preble, libl, vs Solomon B. Preble. Divorce decreed.

Drusette S Kilgore, libl vs Wm H Kilgore. Divorce decreed.

Ann Spencer, libl, vs Rebecca E. Spencer. Divorce decreed.

CAUTION.—Citizens travelling up Court street after dark, are particularly requested not to take the right hand side-walk, when passing the dwelling house of Thomas Jenness, Esq., lest a slight variation in their footsteps should land them forty feet over the precipice in that locality.

INSTALLATION. The following are the officers of Rising Virtue Lodge of F. & A. M. installed last evening:

W. S. Parlee, Master; Wm. Carlisle, S. W.; Hartford Bond, J. W.; Wm. J. Lord, Treasurer; Geo. W. Snow, Secretary; D. L. Knights, S. D.; Job Collett, J. D.; I. D. Beal, S. S.; S. W. Sawyer, J. S.; S. Everton, Tyler; W. J. Robinson, Chaplain; J. S. Ricker, Marshal.

☞ In speaking yesterday, of the re-election of Senator Morrill, we intended to say that he would probably have a unanimous vote of the Republican members—one of the whole Legislature. We did not expect democrats to vote for him of course.

ACCIDENT FROM SLIDING. Last evening, Miss Eliza Emery, daughter of John Emery of Hampden, while sliding down Centre Street hill in this city, was thrown against a post opposite Mr. Hunt's stable and suffered dislocation of the thigh. She was taken to the house of M. T. Stickney, Esq., where she was visiting, and the dislocation successfully reduced by Dr. Rich, assisted by Dr Snell.

THE FORGER, EMERY.—B. F. Emery, the forger, whose recent arrest at Philadelphia was mentioned yesterday, is not the same Emery who escaped from our jail a few years since. The latter was Daniel C. Emery, of Hampden. Benj. F. Emery, as we learn, studied law in New Hampshire, with Wm. Walker, and afterwards practiced in Dixmont. From thence he removed to Boston, and opened an office in Court Square, where he did quite a heavy business; having money deposited in a Boston Bank,—was sued for an old debt down East—the Bank was trustee, and in order to draw his money from the Bank, he forged a bond, got the Court to approve it, was indicted, convicted, and sentenced to five years in State's prison; served his time out. After that, in 1855, he kept a book store in Buffalo, New York.

☞ Miss Prescott, who is a contributor to the Atlantic Monthly, is a daughter of Jos. D. Prescott, Esq., of Calais. The Eastport Sentinel says that Miss Prescott's familiarity with the Scotch character and dialect is readily accounted for, as many of the early inhabitants of St Stephen in New Brunswick, which is separated from Calais by the St. Croix river, were Scotch. There are settlements in the vicinity of St Stephen, such as the Scotch Ridge, where the Scotch dialect is almost universally spoken.

Ship F. W. Bailey, of Portland, sailed from San Francisco 8th inst., for Puget Sound.—When outside the harbor she drifted on a shoal and was instantly broken up. The captain and 15 of the crew (another account says five) were were drowned: 3 saved. The wreck has been sold for $100. The F. W. B was built at Freeport, Me., in 1854, 711 tons, rated A2, owned by T. Cushing and others of Freeport, and valued at $30,000.

☞ Captain Wm Chase of Harrington died Dec. 21st, on passage from New York to Boston.

ARRIVALS &c. The total number of vessels that arrived at the port of Machias for the year ending Dec. 31, 1862, was 164, viz:—

Schooners,	144
Brigs,	17
Barks,	5

The first arrival was March 14th.—*Union.*

☞ The Hallowell Gazette throws discredit upon the report that that city is about to throw off its city organization and re-adopt the form of a town government.

REGISTERED SEAMEN. The number of seamen registered in the ports in this State during the year ending Sept. 30th, 1862, was as follows: Bangor 221 native, 5 naturalized; Belfast 52; Bath 57; Frenchman's Bay 40; Machias 31; Passamaquoddy 59 native, 6 naturalized; Portland 863 native, 16 naturalized; Wiscasset 23. Total 1406 native, 29 naturalized.

POSTAL CURRENCY. The Collector of Portland has recently distributed in packages of ten dollars each, about $4000 of the postal currency. It took about fifteen minutes to distribute it.

☞ The Lewiston Journal says that a young child of F. M. Jordan, Esq., in Auburn, a day or two since tipped a plate of hot fat down its throat and neck, burning it so badly that it died, after lingering in great suffering for twenty-four hours. The dish containing the fat had been placed on a Refrigerator, as was supposed, beyond the reach of the child, but it managed to get hold of it.

☞ Sakr. alolope, of Castine, which dragged ashore at the Portsmouth, N. H., coal mines) during a heavy westerly blow on the 7th instant, while loading coal for Boston, continued to thump heavily on the rocks, starting a butt and opening one of the seams. She has filged, and the tide ebbs and flows in her. A survey has been held on the vessel, and she was condemned and given up to the underwriters. She has on board about 68 tons of coal.

☞ Capt. A. T. Kenney, of brig A. O. Gardner, fell Dec. 16, on board, in lat. 26 40, lon. 74 40. Capt. K. belonged at Machiasport.

It is said that Hon Bradbury is going to New Orleans for his health. A friend suggests that it may be in accordance with Butler's advice, who advises every man afflicted with too severe Hunkerism to try the air of New Orleans.

RAILROAD AND STEAMBOAT COMMUNICATION WITH BOSTON. We learn that it is in contemplation the ensuing Spring, to run a five o'clock P. M., train of cars from Brownfield to Bath, to connect with a nightly line of boats to Boston. Mr. Moses, the President of the Bath and Androscoggin road, stated at the meeting of the City Council on Friday evening, that parties were ready to put on one or more good boats, if such an arrangement with the Portland and Kennebec road could be made, about which there can be no doubt.—*Bath Times.*

COMMENT OF THE RICHMOND EXAMINER ON BRAGG'S RETREAT.—In admitting the defeat at Murfreesboro and the inestimable advantages lost to the South by the defeat of Gen. Bragg's army, the Richmond Examiner of the 6th, says:

"When he southwestern army fights a battle we first hear that it has gained one of the most stupendous victories on record; that reg ments from Mississippi, Texas, Louisiana, Arkansas, &c., have exhibited an irresistible and superhuman valor unknown in history this side of Sparta and Rome. As for the Generals, they usually get all their clothes knocked off, and replace them with a suit of glory. The enemy is, of course, simply annihilated. Next day more dispatches come; still very good, but not quite so good as the first. The telegrams of the third day are invariably such as to make a mist, a muddle and a fog of the whole affair. But we are still assured that our troops are victorious. And only after several days more does the unpleasant truth leak out that they are not quite victorious, but have, in fact, lost a little ground, after gaining some very brilliant successes. So far as we know anything about the battle of Murfreesboro, it is the parallel and repetition of Shiloh. Even the number of prisoners are given in the same ciphers. But we have not yet ceased to hope for something to break the melancholy monotony, and therefore dismiss this unpleasant theme with as little reluctance as the reader may imagine."

"CONQUERING THE REBELLION." All, except open rebels and their sympathizers agree that we must "*conquer the rebellion.*" Sometimes we are exhorted to "let the nigger question alone, till we have conquered the rebellion."—To this policy, practically, some professed abolitionists seem inclined.

But who are the rebels, and what is the rebellion, to be conquered?

The 85,000 rebels of Tennessee, according to Gov. Andy Johnson, are he 33,000 slaveholders of Tennessee. By the same rule, the 350,000 slaveholders of the United States, or more or less in number, are the rebels of the United States.

The rebellion is the slaveholders' rebellion—in the interest of slavery—for the one sole object of perpetuating slavery, of extending it over the whole country, and enabling the slaveholders to supremacy, as "the ruling class" of the country.

Now then, in the name of common sense, crush the rebels and the rebellion to be conquered, without compromise, the slaveholders in slavery.

Slavery is all that the rebels are fighting for, and if we are not fighting against slavery, we are neither fighting against the rebels nor the rebellion.

So long as the rebels can maintain what they are *fighting for*, so long, of course, they are maintaining their ground, and we are doing with no effectual against them.

Give them slavery, and you give them all you want. Giving them slavery is giving them supremacy, as "the ruling class"—and giving up yourselves to be their inferiors, as the "subject class"—as we have been, for half a century past.

"Reconstruction" with slavery, is being conquered by the rebels and for the rebellion. It is acknowledging the slaveholders to be our conquerors, our masters, from henceforth, forever more.

Whenever you hear a man talking, apparently, about "conquering the rebellion" by letting the negro question alone" you may venture to institute the inquiry whether he is simply a simpleton or a sympathizer with secession.—One of the other he must, of course be.
